WORKSHOP TOPICS

Critical Thinking
At university, learning involves much more than just memorizing facts and figures. This workshop will assist you in pushing beyond purely descriptive levels by examining deeper levels of understanding, analysis, critical thinking and evaluation.

Exam Prep
Multiple choice, short answer, calculations, or essay style – which form is your personal nemesis? Whatever the format, midterms or finals, if you could use some help in preparing for exams, then this workshop is for you!

Memory
Most people only use a tiny fraction of their brain power. Learn techniques to help you transfer all that course work information into your long-term memory, along with the strategies you’ll need to retrieve the information when you most need it.

Presentation Skills
Does the thought of presenting in front of a group give you the jitters? If so, you’re not alone. This workshop will provide you with essential tools that will allow you to effectively develop and deliver a presentation.
